PUB TYPE	Books (010) -- Guides - Classroom - Teacher (052) -- Non-Print Media (100)
EDRS PRICE	Document Not Available From EDRS.
DESCRIPTORS	*Biological Sciences; *Disease Control; Group Activities; Hands on Science; *Health Education; Inquiry; Interdisciplinary Approach; Middle Schools; Science Instruction; Scientific Literacy; *Student Centered Curriculum

ABSTRACT

This book is designed for middle school life science or physical science teachers to help their students learn scientific literacy through event-based science. Unlike traditional curricula, the event- based earth science module is a student-centered, interdisciplinary, inquiry-oriented program that emphasizes cooperative learning, teamwork, independent research, hands-on investigations, and exploration of authentic tasks. Students use this book to work as a cooperative team to discover the identity of a mysterious disease rapidly spreading throughout their community. The module in this book can be used to build a whole curriculum or fit into current lesson plans to add interest. (KHR)
